

Harriett

“I may be little but don’t let my size fool you. There is a lot of me in here. I am grateful to feel the joy in being alive. I am grateful to have my friends with me. We stuck together in hard times and wanted to stay together forever. We got our wish and we are so excited to be here. This is my first year here. Every day is a new day of finding out even more things about life here on this farm. I love meeting people. I love knowing that we are safe and that we can just be ourselves. And I love finding out more about all of you. I hope you will come visit us. This farm is very charming, caring, loving, and safe. I still can’t believe we made it here. But it is all true. When all seemed hopeless, suddenly help arrived and brought us here. At first we were uncertain as to what was going to happen. But then all of the other horses and donkeys welcomed us and told us we could stay here forever. I hope forever is a very long time. I have a lot to do!”
